Re: Ground Water Permit No. G3-29853

Dear Mr. Neumann:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reason(s) below:

According to your request, the economic downturn has resulted in an inability to put water to full beneficial use under your permit. This construction of the delivery system is complete but not all the cabins have been constructed resulting low water use. It appears you have made substantial goals in completing your project and putting water to full beneficial use. Your request is for a reasonable and short period of time. We will grant you an additional three years to complete your project.

The new deadline to submit your *Proof of Appropriation of Water* is February 1, 2013.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

You have a right to appeal this decision. To appeal this you must:

- File your appeal with the Pollution Control Hearings Board within 30 days of the “date of receipt” of this document. Filing means actual receipt by the Board during regular office hours.
